Synopsis

Spending his childhood in Indonesia for around four years, Little Barack Obama befriended a company of misfits and street kids in Menteng area, Central Jakarta until 1970. Little Obama's childhood friends shared stories about friendship to Damien Demantra, who then published a novel. "Little Obama" is a movie adapted from the novel of the same title. The story is based on true events as shared by Obama's childhood friends.

Arriving in Menteng area approaching the final year of his childhood in Jakarta, Barry or "Little Obama" found himself alienated in his neighborhood. He quickly had an unfriendly encounter with the local street kids, and his only friends were the two brothers who lived next to his house. Being a kid of different color and weird hair did not help either. To make things worse, the 9 year old Barry had to go to school escorted by the effeminate Turdi, one of the domestic helps in his family.

Barry was challenged to football games in the muddy field. He strived to find friends who would help him win the game, and in doing so, what he found is the strength to be different in the time and place where difference was often deemed as bad. With the help of his tough Indonesian father, and pregnant mother, Barry found his way to accept himself completely, even encouraged his new friends to always take a stand.

"Little Obama" is an inspirational and adventurous children and family movie, exploring themes on friendship, and living in a diverse world. The story of "Little Obama" is to share the fact that even the most ordinary kid from a multicultural background can be a world leader today.
