

For immediate release

Distributors continue lining up for LOVING VINCENT

Beverly Hills, November 2nd, 2016

While nearly 100 painters are busy putting the finishing touches on what Beverly Hills based international sales company CINEMA MANAGEMENT GROUP (CMG) is calling the world's first fully painted animated feature, *LOVING VINCENT* continues to add to its distinguished group of international distributors.

Latest territories to be sold include Russia to CD Land and Brazil including Pan Latin Pay TV to Swen. Both deals were concluded just prior to the AFM where CMG will be showing new footage of the film that chronicles the life and death of Vincent van Gogh as told via his paintings and the characters that inhabit them. Based on meticulous research and drawing from over 800 of van Gogh's letters, the film is animated in the style of van Gogh's paintings and is comprised of over 62,000 oil painted canvases.

Since March, the *LOVING VINCENT* teaser trailer has set the internet on fire with over 130 million views from all around the world. Says CMG's Edward Noeltner, "It's truly gratifying that the Internet buzz on *LOVING VINCENT* translated into a recent sold out 'making of' presentation at The National Gallery in London last week. The van Gogh Museum in Amsterdam is also hosting a 'making of' event on November 25th as a lead up to the film's completion which is attracting a lot of attention on their website."

Starring Douglas Booth, Jerome Flynn, Chris O'Dowd, Oscar nominee Saoirse Ronan and Eleanor Tomlinson, *LOVING VINCENT* is produced by Oscar winners BreakThru Films (*Peter and the Wolf*) and Trademark Films (*Shakespeare in Love*). The film's musical score was composed and arranged by Grammy nominated Clint Mansell (*Black Swan*).

LOVING VINCENT has already sold to over 20 distributors around the world and with a new promo to show at the AFM and the extensive news coverage the film has received around the globe from Sky News, BBC, NBC Nightly News, Arte, TV Globo, etc..., Noeltner and his team are looking to add additional distributors in the unsold territories during the market. The film's worldwide theatrical release is pending the film's Film Festival world premiere in 2017.
