LOS ANGELES (November 2, 2017) – Avalon Studios is pleased to announce their 2017 AFM line-up as well as a host of accessible production incentives in New Zealand. In recent years an ever-expanding list of big-name movies have been made in New Zealand, and Avalon Film & Television Studios has provided a range facilities to assist in their production. Boasting access to Oscar-winning crews, Avalon Studios is a hub with great proximity to the city and a geographic midway point to access New Zealand's renowned landscapes and awe-inspiring locations.

In addition to a network of experienced crew having worked on large budget international films, Avalon Studios has a close relationship with the New Zealand Film Commission and is able to assist with Funding Grant applications. The New Zealand landscape features a wide variety of accessible settings from beautiful beaches, rugged coastlines, to mountains, lakes, rivers, forest, rural farmlands, suburbs and city locations.
